

Enclosed Type_(Water Hose Reel)

This water hose reel meets the requirement of HACCP.

We would like to recommend this reel to use in the kitchen to maintain the clean condition and arrangement.

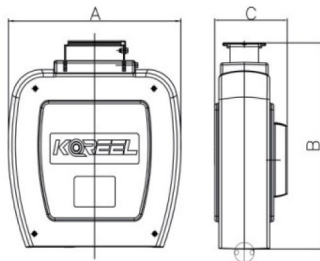

Hose is manufactured by KOREEL and consisted of non-toxic material.

Water flow can be adjusted pin point and spray mode by water nozzle.

Water nozzle covered by NBR rubber which is strong on cleanser and chemicals

(The mode of PWR-1307SH can be used with steam for high temperature and the hose is made in France.)

PWR Type_(Material : ABS plastic case)
